ABOUT ME

Hossam Sayed

I am graduated from the Faculty Of Engineering Ain Shams University Architecture Department in 2017. I worked with Revit from 2013 , worked as Design Architect at **RMC** and a 3d design architect and BIM for **elgably** architects , also I worked as a BIM architect at the stadium in Italy , made many projects all over the world and I were a Revit instructor.

I can guarantee that I would be a valuable member of your respectable organization

DESIGN

Design is the first approach that I get involved in and I think it the most important part of the project.

TECHNICAL

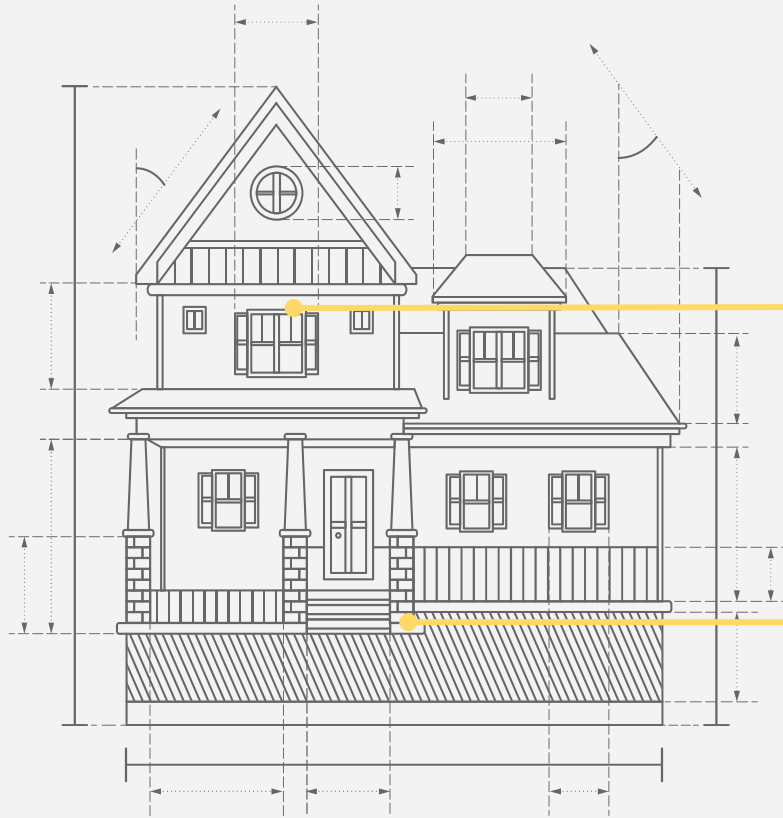

Technical is the most logical part of the project especially working with BIM standards that make the project more readable and achievable.

VISUALIZATION

Visualization is the decorated part of the project we can say it's the final touch in the project which adds artistic value to it.

WHAT I DO

Design : Starting with **client requirements** for his project and make design standards to achieve clients requirements and go forward to **marketing material** with **schematic** design .

Technical : After marketing material we make license drawings to start the first technical phase **D.D** plus **tender documents** and finally **Issue of construction** .

Hossam Sayed

MY PROFILE

I'd like to introduce myself in brief. I am graduated from the Faculty Of Engineering Ain Shams University Architecture Department.

MY RESUME

EDUCATION

- **2009-2012** El-Eman Private School
- **2012-2017** Faculty of engineering , Architecture , Ain shams univerty
- **2019-2020** CS50 , Computer science certificate
- **2019-2020** ASP.Net mvc diploma at Russian Culture Center

EXPERIENCE

- **2014** training at (Housing & Development Bank) (Site Training)
- **2014** training at (Talaat Mostafa Group) in El-Rahaab (Site Training)
- **2015** training at (R.M.C) (Office Training)
- **2016** Revit instructor
- **2017-2018** Designer Architect intern at R.M.C
- **2018-2019** Junior architect at El-gabaly Architects
- **2019-2020** Design and BIM Architect at American Company
- **2020** Remotely in many countries

HOBBIES

**MY WORK ON
DESIGN&VISUALIZATION**

FACADES

PROJECT 1

Residential Compound proposal located at 6th October city , EGYPT using modern style with warm colours and materials.

FACADES

PROJECT 2

Another Residential Compound

proposal located at 6th October city ,
EGYPT using modern style with warm
colours and materials for the same
company to show it at City scape.

PROJECT 3

FACADES

Villa Compound proposal located North Coast ,
EGYPT using modern style with warm colours
and materials .

FACADES

PROJECT 4

Another Villa Compound proposal located North Coast, EGYPT using modern style with warm colours and materials for the same company.

PROJECT 5

FACADES

Residential Compound proposal located at Sheikh Zayed City , EGYPT using modern style with Orange paint colour to be Special.

FACADES

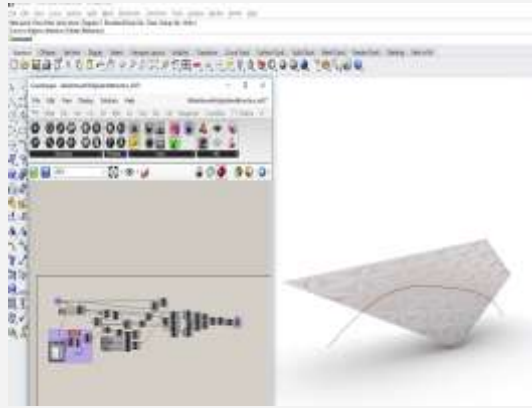

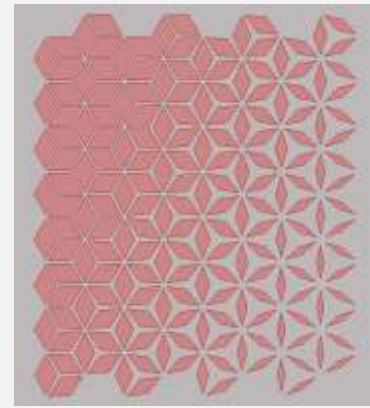

PROJECT 6

Complex Building Design called **90Nile**
Using Mix between many materials to
make variable sense of Architecture.

PROJECT 7

PATTERN

That is one of the most tasks I liked. Design a pattern shape for the stadium in Italy and I made it parametric using some equations by using Grasshopper.

FACADES

PROJECT 8

Stadium At Italy

After making patterns using the parametric design we try to make a different style in the facade.

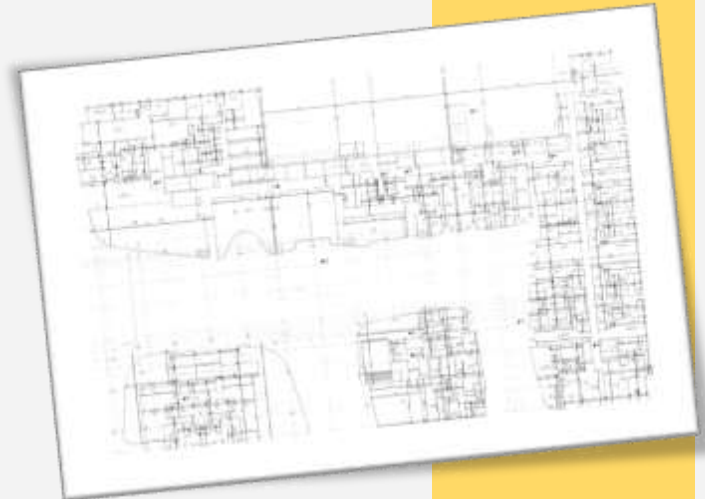

ALL DESIGN

PROJECT 9

Port Said City Center

Complex building with many functions like offices , mall , cinema , clinics , market , shops , residential , At el-gabaly Architects i were the one who responsible for that project from first phase (client requiments) till schematic and D.D drawings

PROJECT 10

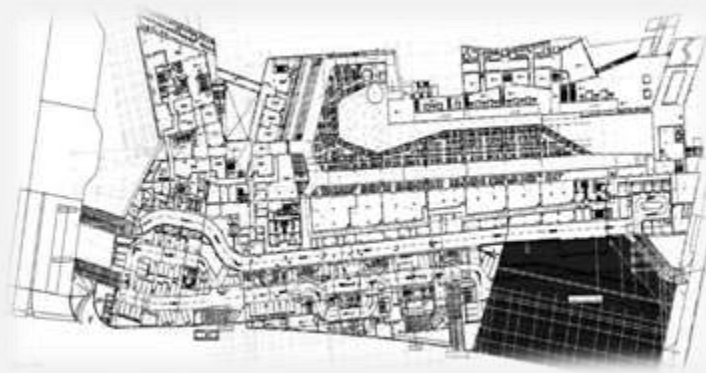

PLANS

Zayed Business Park

Residential Building using new techniques inspired from Zaha Hadid, Daniel lesbkind, and Norman foster. I was responsible for plans and it's editing to get it suitable with 3d modelling.

ALL DESIGN

PROJECT 11

Zayed Edge Complex Project

mall, cinema, clinics, offices, foodcourt,

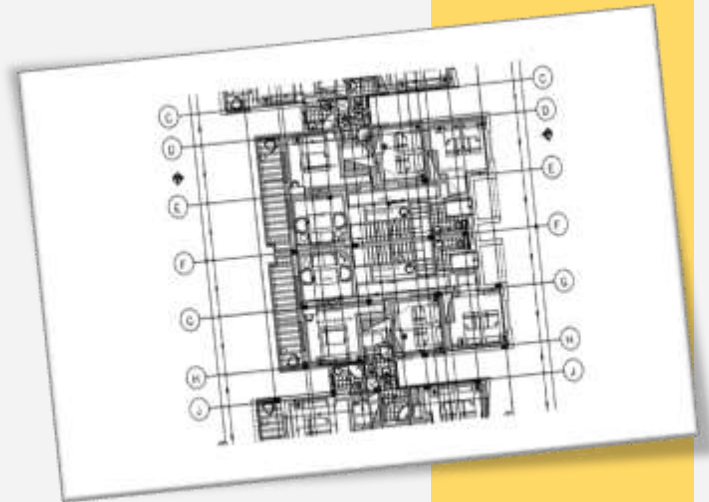

I worked on mall and offices part so i had to make co-ordination between all parts and understand all designs.

PLANS

PROJECT 12

Jumirah bay project, I worked on plans
we have to edit it to make it suitable with 3d modeling

ALL DESIGN

PROJECT 13

Villa Design at north-coast, EGYPT from scratch I just had land Area and start making my design on plans and Facades using Deconstruction style.

PROJECT 14

PLANS

Porto Pyramids El-Sokhna project was in early-stage (marketing material) I worked on plans (edit + visualization)

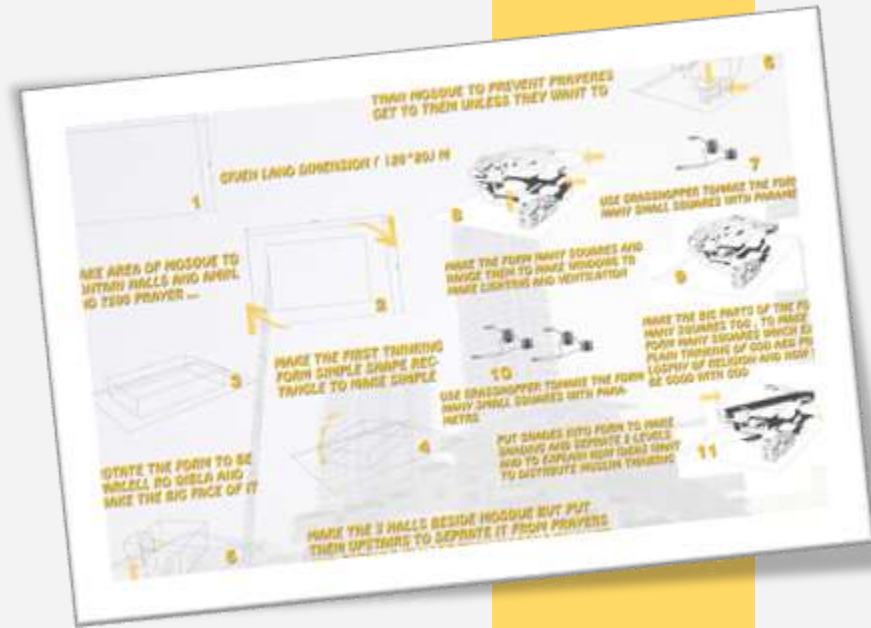

ALL DESIGN

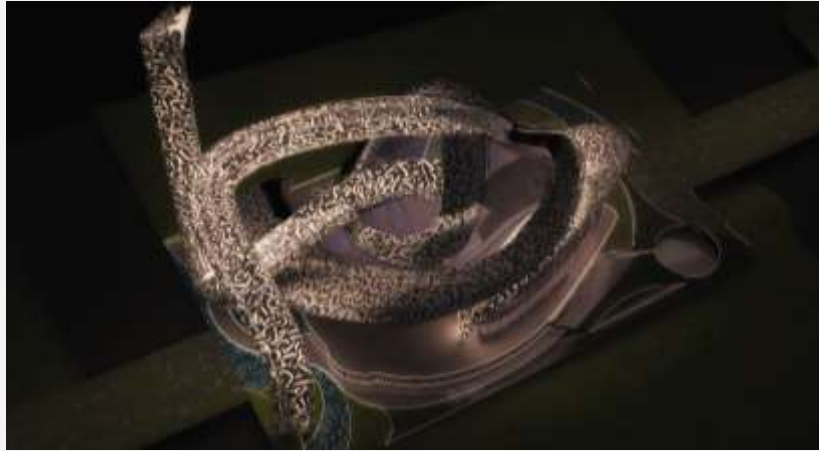

PROJECT 15

Iconic Mosque Competition proposal 1 :

I really loved this competition and I made 3 proposals for it this is the first one.

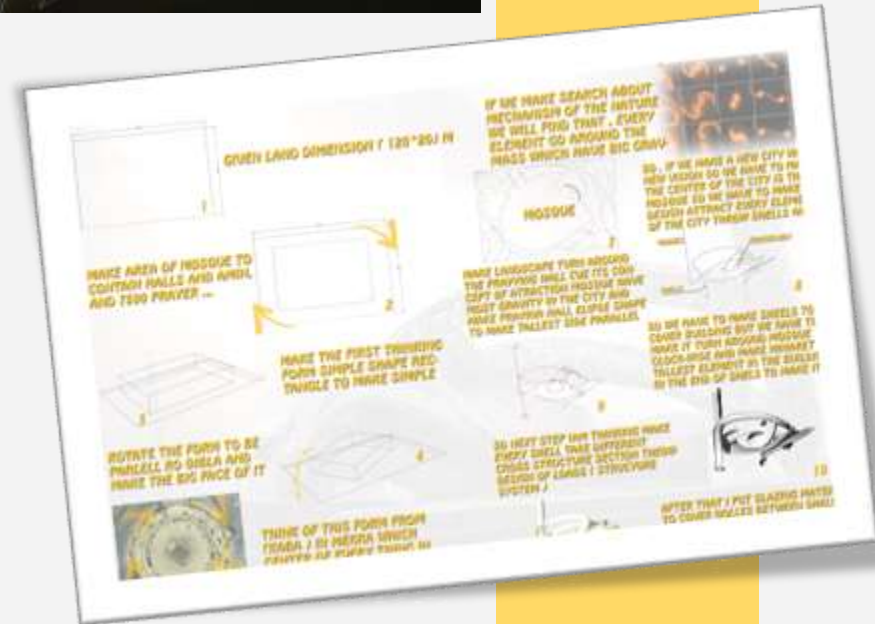

ALL DESIGN

PROJECT 17

Iconic Mosque Competition proposal 3 :

I made 3 proposals for it this is the Third one.

PLANS

PROJECT 18

Jeddah Ibis & Adagio Hotel Project
at RMC I worked at Technical and
design phases.

PROJECT 19

FACADES

Zayed City Edge Residential at RMC . I worked on 3d modeling to make modern design + Visualization.

ALL DESIGN

PROJECT 20

El-Galala Residential Compound :

I worked on El-Galala 7 and El-Galala 5 projects on plans and 3d modeling + Visualization .

PLANS

PROJECT 21

Marassi Village Blanca Emaar:

Working on design Plans

PROJECT 22

FACADES

College Project: making 3d modeling and Visualization

FACADES

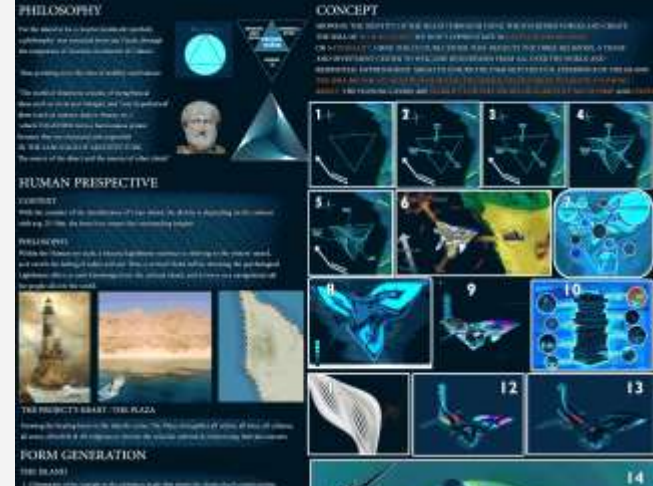

PROJECT 23

Expo Project: making 3d modeling +
Visualization

ALL DESIGN

PROJECT 24

My Graduation project was a floating city using organic design to make all city = 1 building. Worked in all phases plans and 3d modelling plus all studies.

PROJECT 24

ALL DESIGN

My biggest part of the project was 3d modeling on 3dmax and making a new organic form to make all connected to each other

ALL DESIGN

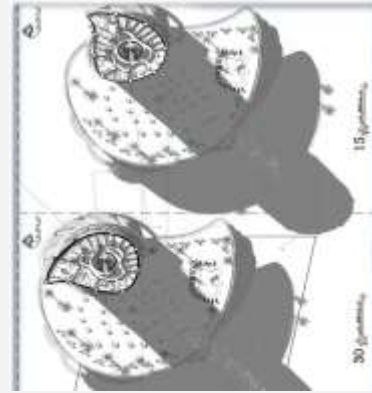

Stadium Project in 4th year at college using the organic form and free form to make it dynamic because it is a stadium so I have to make it dynamic form.

PROJECT 25

MAIN SHOT

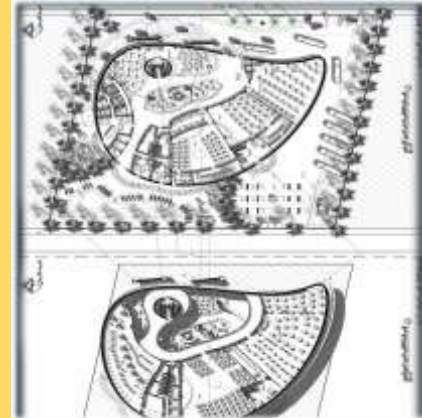

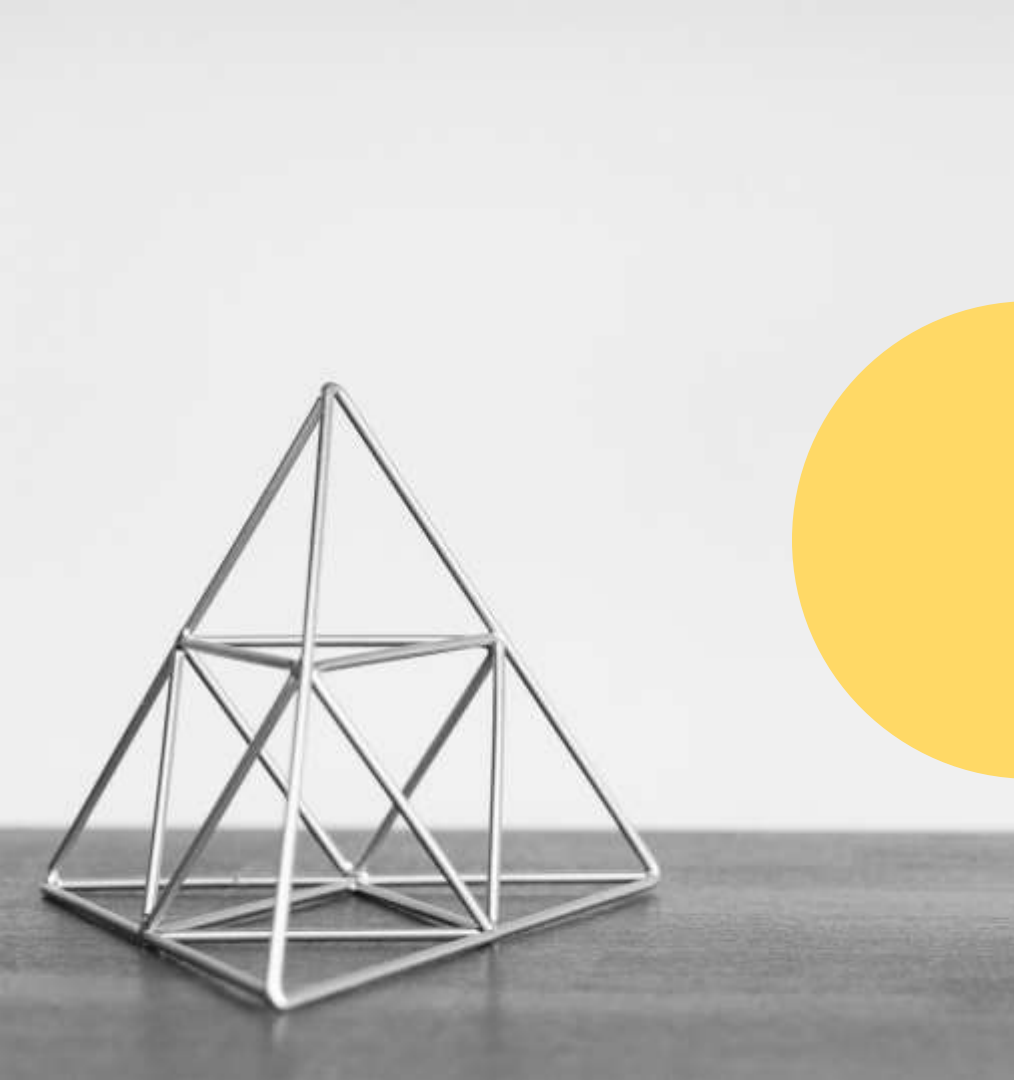

ALL DESIGN

PROJECT 26

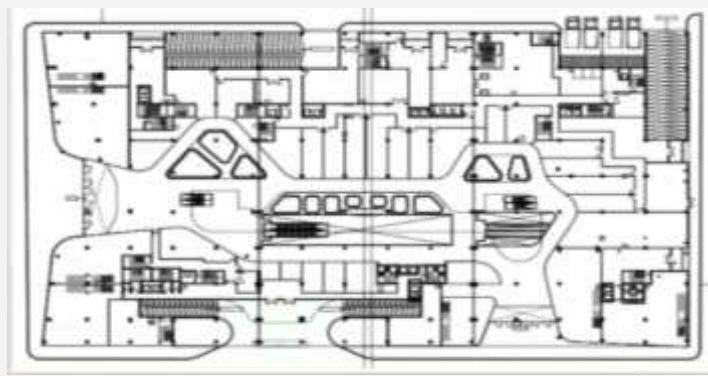

Hotel Project proposal behind Nile city towers. In this design, I studied Calatrava projects and I make this project inspired by him using a parametric design based on equations by grasshopper software.

A large, solid yellow circle is positioned in the center-right of the image, partially overlapping the wireframe pyramid and the text.

**MY WORK ON
TECHNICAL**

D.D&TENDER

PROJECT 9

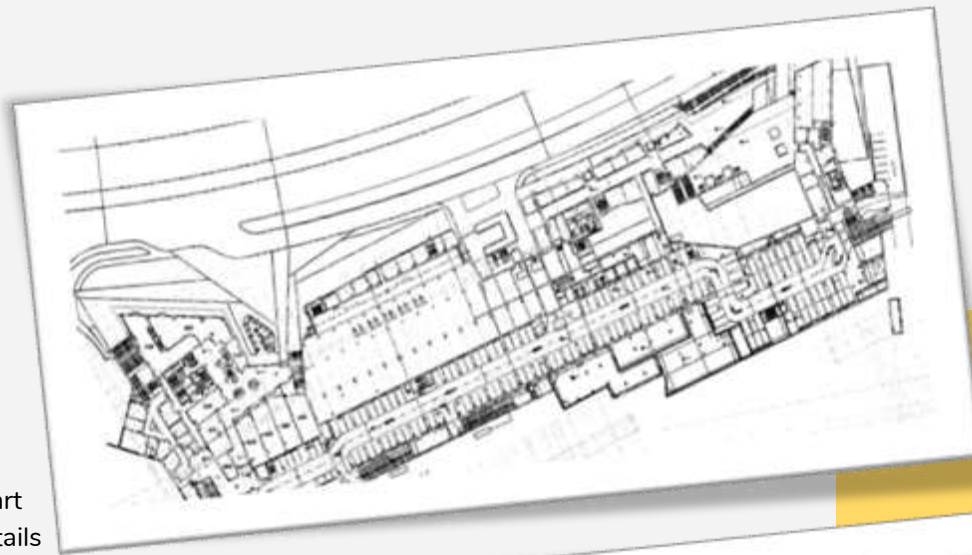

Port said city center :

I worked on this project from scratch till we got into D.D and Tender phases so we made details and schedules on REVIT

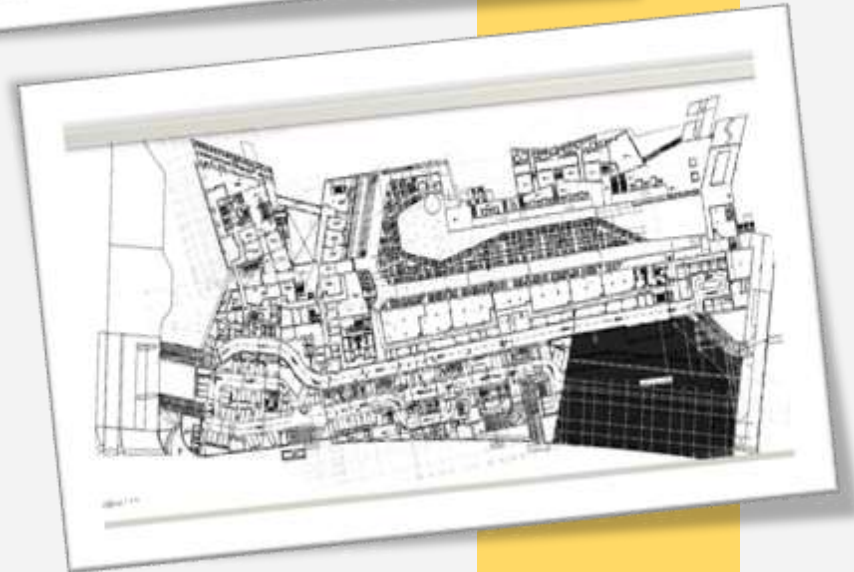

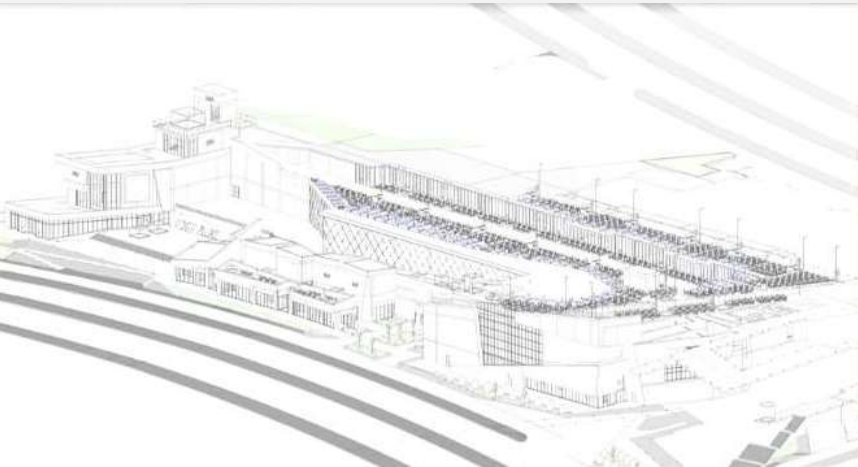

TENDER

PROJECT 11

Zayed City Edge Building:

My part is mall and office file after making plans we start working on tender drawings and make many of the details using REVIT = LOD 400

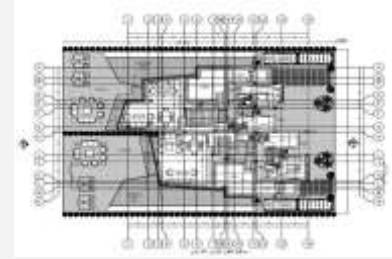

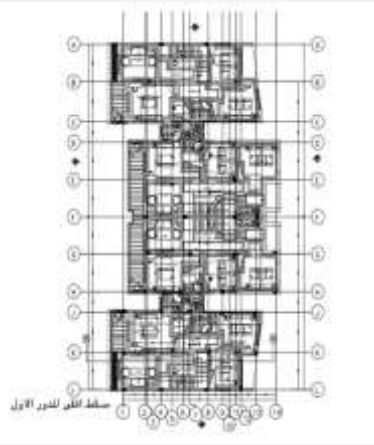

PROJECT 18

D.D

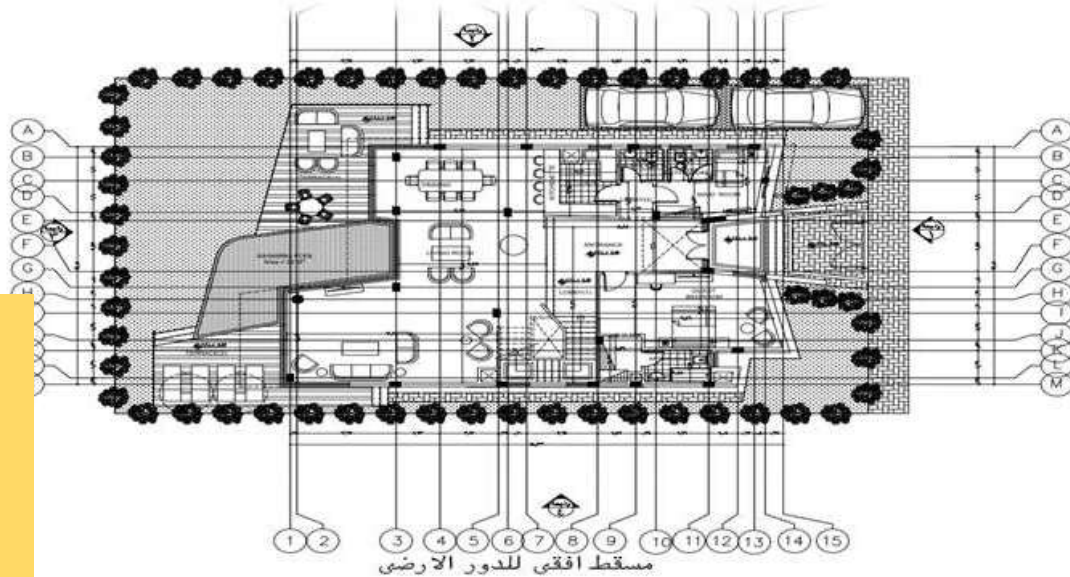

Jeddah Ibis & Adagio Hotel Project

I worked on both design and
Technical drawings on this project
till we get LOD 300

D.D

PROJECT 12

Jumirah bay project
I worked on both design and
Technical drawings on this project

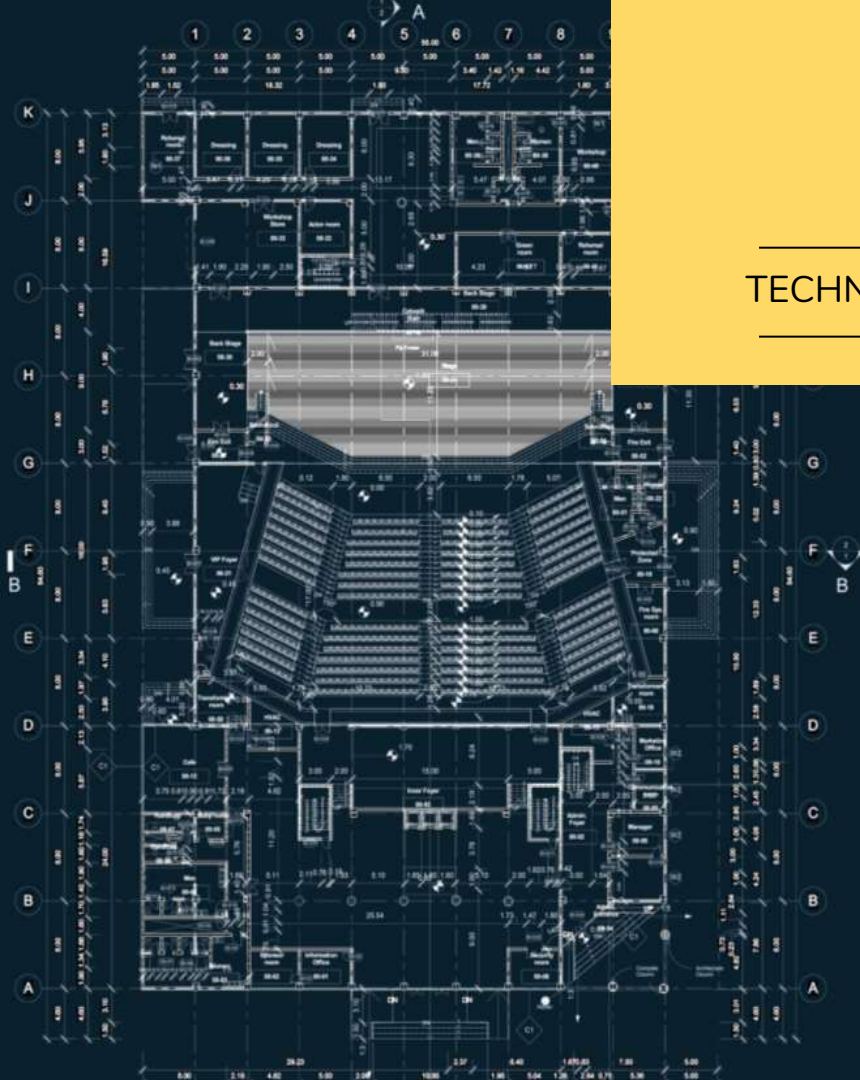

PROJECT 27

LICENSE

El-shrouk International School

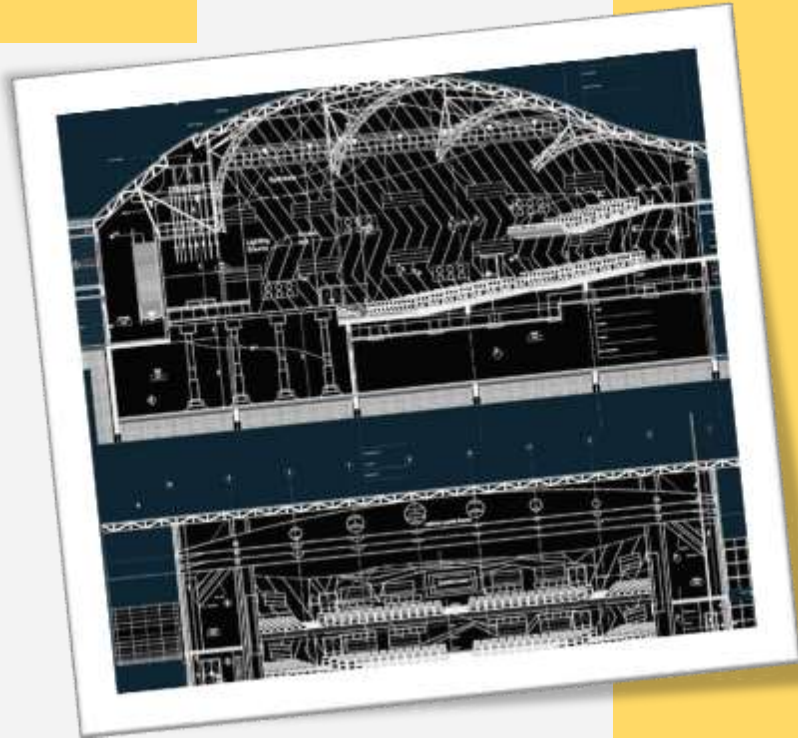

I worked in editing plans to finish license drawings

TECHNICAL

Theatre project which we made on working studies. I started it from scratch until I made detailed sections and plans

PROJECT 28

HOUSING

PROJECT 29

Housing project which we made in college in the last year using containers so it was a creative and economical project

**MY WORK ON
INTERIOR**

KIDS ROOM

Kids Room using warm colors to make it creative design and modern style.

BED ROOM

PROJECT 31

Bed Room using Cold colors to make it special design and modern style.

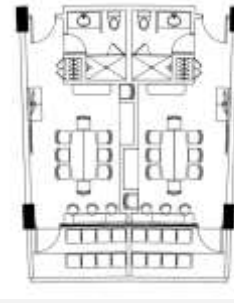

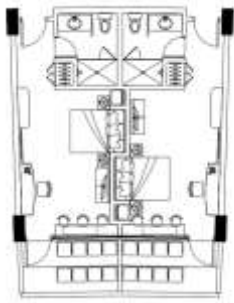

STADIUM

This is interior for room at Stadium in Italy for visitors using a modern style.

PRIVATE BOX

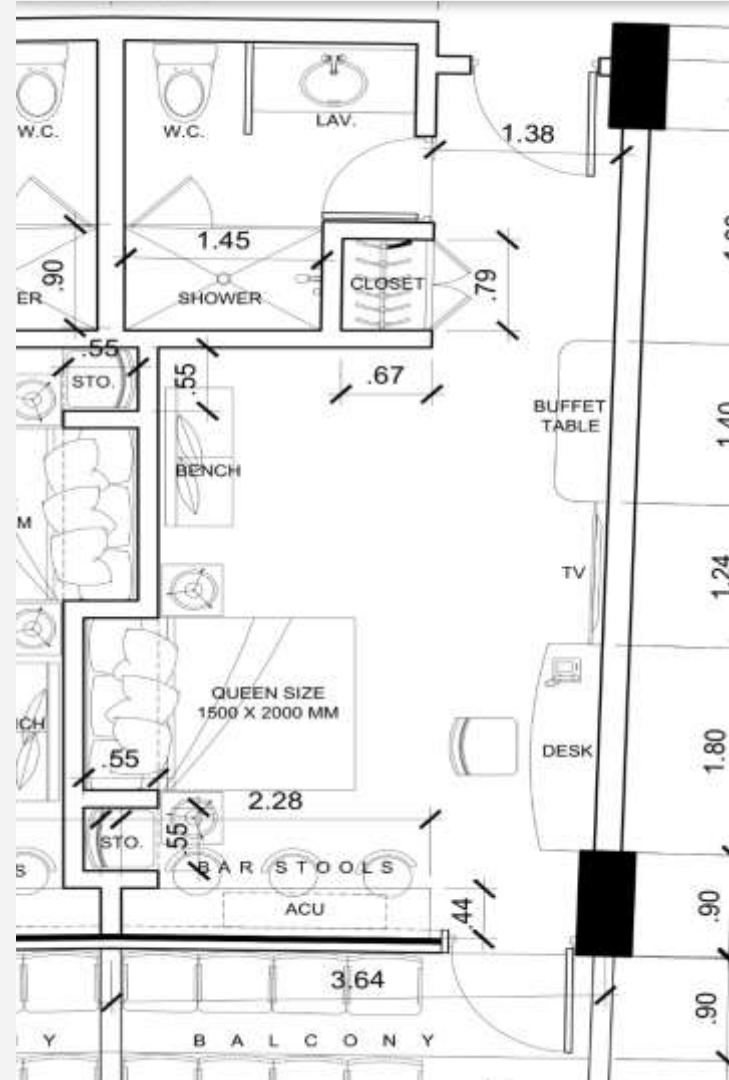

Private box interior design for VIP at Stadium in Italy. I made 2 proposals one for bed and the other for dining

PRIVATE BOX

This is another design for a **private box** but I made a mix for 2 functions in one design (bed and dining).

PROJECT 34

STADIUM ROOM

PROJECT 35

Hotel Room

This is the interior for the room at the hotel attached to the stadium in Italy for visitors. I made a simple designs as usual for hotels.

BED ROOM

Bed Room using Cold colors to make it special design and modern style.
