Work Experience

ECG Engineering Consultants Group

Project Management Engineer in Architectural Department. (Mar. 2021-present).

Duties

- Responsible for leading and managing the project tasks to satisfy the engineering work program within the indicated time budget by maintaining project schedule and monitoring project progress and quality, ensuring that projects are delivered on time, within scope and within budget.
- Interacting with clients, interpreting their needs and requirements, conveying them to technical team and vice versa, while controlling client request to assure adhering to the project scope.
- Cooperating and communicating with the project manager and other project participants and collaborating with senior engineers, technical office and contractors to create more efficient project methods and to maintain the project's profitability.
- Formulating project parameters and assigning responsibilities to the most capable employees and monitoring the project team.
- Performing quality control tasks on budgets, schedules, plans, and personnel performance and reporting on the project's status.
- Reviewing the engineering tasks and initiating the necessary corrective actions.

Projects

- **Taj City - Shalya & Lake Park Building Prototypes Design (Cairo- Suez Road)**

Client: Madinet Nasr for Housing & Development (MNHD)

The project covers designing prototypes for 8 buildings in Taj City compound to be delivered as core and-shell. All buildings comprise a ground floor, 5 upper floors, and a basement. The typical floor area varies between 289 - 1070 square meters, and the BUA varies between 3000 - 8000 square meters.

- **Taj City - Cobalt Business District Zone A1 (Cairo- Suez Road)**

Client: Madinet Nasr for Housing & Development (MNHD)

The project covers designing masterplan, landscape and all buildings. The buildings consist of a ground floor, 4 upper floors, and interconnected two-floor basements. There are four prototypes with built-up areas ranging between 10,000 & 20,000 square meters. All buildings to be delivered on core & shell basis.

- **City Gate Compound (Fifth Settlement)**

Client: Qatari Diyar Development & Turner Management

The project covers designing infrastructure, MEP networks, roads, and buildings, in addition to all relevant permits approvals process. Located approximately 40 km east of Cairo downtown, along the eastern boundary of New Cairo City; Zone 2D is the first parcel to be constructed in the compound. It includes 430 villas with a total BUA of 130,727 m². The project includes zones 2D with a total area of 110 acres, including 491 villas; and 3D with a total area of 101 acres.

ECG Engineering Consultants Group
